ABOUT ME

With **1.6 years** of experience in software development, I've contributed to **33 client live projects** primarily as a Front-end developer, with additional Full-stack development in one project. I've worked on **7 React.js projects**. Based on my performance, I was selected as the **Lead in Front-end development** for the previous company's beta team, responsible for ensuring design consistency across all projects. My strong passion lies in UI/UX design and Front-end development. I love to stay updated with the latest trends, methods, design concepts, and principles. I aim to grow in alignment with these trends and principles as I continue my career.
